

5.3.3 Common Congenital Anomalies - Rates of Down Syndrome, Canada, 1996 to 2007

Graphic created by CICH with data from the 'Perinatal Health Indicators for Canada 2011'. Ottawa: Public Health Agency of Canada; 2012

There has been no clear trend in the rates of Down syndrome since 1996. In 2007, the rate was 13.0 per 10,000 total births, or approximately 483 babies born with Down syndrome.
