

The Health of Canada's Children and Youth: A CICH Profile Health Profile on Immigrant and Refugee Children and Youth in Canada

Section 4 – Immigrant Children and Youth – Cultural Discordance

4.1.2 Adaptation and Acculturation

Graphic created by CICH using an image from Stockvault.

Caring for Kids New to Canada tells us that immigrant youth move through four stages when they adapt to their new country. These steps are happiness and fascination; disappointment, confusion, frustration and irritation; gradual adjustment or recovery; and acceptance and adjustment. This process does not happen along a straight path – youth move forward and backward along the way. Cultural discordance can occur at any step along the way.
