

Primary Health Care Services for Children and Youth in Canada: Access, Quality and Structure

Appendix to module page 5.4.1: Publicly-Funded Drug Coverage

What Did We Do?

We used the previously published framework by Ungar and Mitkos (2005) to guide an updated search for current drug plan coverage for children and youth in Canada. We searched provincial and territorial Ministry of Health websites which outline publicly funded eligibility and drug coverage. Data is current to May 2014.

Ungar, WJ & Witkos, M. Public drug plan coverage for children across Canada: A portrait of too many colours. *Healthcare policy*. 2005; 1(1):100-22.
